

Basic Materials

Employed material application in coils and rods, round or profiled:

Free-cutting steel, for example

9 SMn28Pbk (EU Standard
11SMnPb30+C)

High-grade steel

In various grades, e.g. 1.4305,
1.4401

Brass

In all degrees of hardness and
mechanical strength

Aluminium, e. g.

AlMgSiSn

Copper, e. g.

CuSpF37
